

Senior Course Outline

NCEA Level Two (Y12) Subject Information

2022

The purpose of this booklet is to inform students, parents and whānau about the courses (subjects) available to students in 2022. It is important that you make informed choices that relate to your future career and interests.

It is most important that you make the right choices for you, and create a timetable that is challenging, engaging and stimulating for 2022. You need to think carefully about your option choices, as well as get advice and information from your teachers, Achievement Dean and the websites recommended within this booklet.

While we cannot guarantee that you will be able to select subjects in all the areas that you like, we hope you can access classes that meet most of your needs and interests and for those other interest areas there is the possibility of joining an online or correspondence learning community.

Helpful Links

The Ministry of Education has put together a number of resources and websites in order to better provide information to our students on NCEA, the vocational pathways and career choices. Here are some of the key websites that you can go to and be better informed.

<http://youthguarantee.net.nz/vocational-pathways> - gives information about Vocational Pathways

<http://www.studyit.govt.nz> - useful study tips for breaking down standards into chunks of learning

<http://studytime.co.nz/> - useful videos, study cards and past exam papers to help with learning

Explanation of NCEA

NCEA stands for National Certificate of Educational Achievement. It is the formal qualification of New Zealand secondary educational system. Throughout the year students will work to gain credits towards NCEA at levels One, Two and Three. These roughly follow, but not necessarily exclusively, to Year's 11, 12 and 13. At the start of the following year students will receive an NCEA certificate as well as a record of results that shows the actual standards and the results that the student achieved in each standard.

Here is a link to a promotional video explaining the basics of NCEA

<http://www.nzqa.govt.nz/qualifications-standards/qualifications/ncea/understanding-ncea/how-ncea-works/video/>

Getting an NCEA Qualification

Level 1 Certificate	80 NCEA Level 1 Credits or above* WITH Numeracy - 10 Credits (EITHER from specified standards OR Unit Standards in the Numeracy package) AND Literacy - 10 Credits (EITHER from specified standards OR Unit Standards in the Literacy package)
Level 2 Certificate	60 NCEA Level 2 Credits or above* (20 carried over from Level 1) WITH Level 1 Numeracy AND Literacy
Level 3 Certificate	60 NCEA Level 3 Credits or above* (20 carried over from Level 2) WITH Level 1 Numeracy AND Literacy
Vocational Pathways Award	80 NCEA Level 2 Credits (where 20 are carried over from Level 1) WITH 60 Level 2 credits from standards associated with the recommended pathway OF WHICH 20 credits are from sector related standards
Course Endorsement	14 credits at Merit OR Excellence within a single subject area and school year At least 3 of these must be from externally assessed standards (exams) and 3 from internally assessed standards (some subjects have exceptions including PE, Religious Studies and Visual Art)
Level Endorsement	Merit Endorsement - 50 credits at Merit (or Excellence) at the Level or above Excellence Endorsement - 50 credits at Excellence at the Level or above i.e. a Level 2 student can gain NCEA Level 2 with Excellence if they achieve Level 2 with 50 of their 60 credits at the Excellence level from standards that are Level 2 or above
University Entrance#	NCEA Level 3 PLUS 14 credits in 3 approved subjects PLUS University Literacy (10 Level 2 Literacy credits, 5 writing and 5 reading [^]) and Numeracy (10 L1 Numeracy credits)

*Credits can be used to count back i.e. Level 1 can include Level 1, 2, 3 or 4+ credits. Level 2 can include Level 2, 3 or 4+ credits. Level 3 can include Level 3 or 4+ credits.

Some University courses have specific requirements for entry e.g. require a certain subject to be taken at Level 3.

[^] Various Level 2 and 3 subjects can offer these credits. You will notice in the subject information the codes **UE R**, **UE W** or **UE B** are given. These correspond to **University Entrance Reading**, **University Entrance Writing** or **University Entrance Both** (reading **AND** writing).

BYOD

BYOD stands for Bring Your Own Device. All students will need to look after their own device and bring it each day charged for their learning. The device could be in the form of a chrome book, laptop or ipad but not a cell phone.

If you do not have or are unable to purchase a device, Paeroa College will provide a lease device, a bond payment of \$100 will be charged and returned at the end of the year if the device is returned in good condition.

Vocational Pathways

Students should either be aiming for course/level endorsements or a Vocational Pathways Award (currently this is only available at Level 2). Vocational Pathways can best be described as a planned method of getting the skills and experiences that will best get you into a future job. There are 6 areas defined as key vocational pathways and these cover pretty much any career that you can think of. The areas are: **Construction & Infrastructure, Creative Industries, Primary Industries, Manufacturing & Technology, Services Industries** and **Social & Community Services**. Having a Vocational Pathways award gives students a greater chance of obtaining apprenticeships and getting into relevant tertiary programmes.

Students that know what they want to be in life generally find subject selection an easier process – they pick subjects that are best suited to their pathway. If you are not sure of what career/job/vocation you would like a great place to start is the Careers website <http://www.careers.govt.nz/>.

From here you can navigate through pretty much any job you can think of. It will tell you lots of information from job prospects, income streams, places to train, and subjects at school to pick (*find this tool plus many others at the bottom of the careers NZ webpage*).

You can find more detail about vocational pathways at <http://youthguarantee.net.nz/assets/assets/VP-bi-fold-brochure-Apr14.pdf>

Gateway

GATEWAY

- is designed to strengthen the pathway for students to progress from school to workplace learning
- provides students with structured workplace learning across a range of industries and businesses, while they continue to study at school
- delivers hands on, practical learning that leads to nationally recognised qualifications
- Builds students' workplace experience, helping them move smoothly from school to work.

Availability

Gateway is available to senior secondary students (Year 12 and Year 13+) at Paeroa College

Placements

Students have an opportunity to work in such industries as Building, Engineering, Farming, Childcare, Retail, Motor Engineering, Horticulture, Electrical, Hospitality, Plumbing, Catering and Hair Dressing.

Gateway students generally spend one day a week in the workplace and usually do this for 10 weeks

Benefits For students

- an opportunity to build skills for employment and working in real workplaces
- an opportunity to try out potential careers and build links to Industry Training Organisations, modern apprenticeships and workplaces

Gateway Staff at Paeroa College

Pauline Kisling: Gateway Co-ordinator (Liaison and Placements)

Denise Grimmer: Pathways Co-ordinator (Qualifications and Industry Training Liaison)

Trades Academies

WAIKATO TRADES ACADEMY 2023

The Waikato Trades Academy (WTA) is a secondary-tertiary partnership which allows Year 11, 12 and 13 secondary school students to study at Wintec while still at school, getting the benefits of both worlds.

The WTA gives students a head start; gaining specific and practical experience and skills in an industry based setting, and the opportunity to move directly into a job or apprenticeship, or further study, on completion of secondary school.

The Academy provides sector related credits required to earn a Vocational Pathway Award on your NCEA Level 2 and NCEA Level 3 qualifications.

Outcome

Participants in this programme will gain the knowledge and skills required to make decisions about career and higher level study pathways within their chosen vocational pathway.

Programmes

WTA Year 1 (Level 2) programmes:

- [Vocational Pathway - Manufacturing and Technology Sector \(Level 2\)](#)
- [Vocational Pathway - Manufacturing and Technology Sector \(Longveld\) \(Level 2\)](#)
- [Vocational Pathway - Construction and Infrastructure Sector \(Level 2\)](#)

Volcanics and Correspondence

Correspondence and Volcanics offer students the chance to study a subject that is currently not on offer in their own school OR if there is a clash of subjects.

VOLCANICS

Taking a Volcanics allows you to take a subject you are interested in but you will not be taught by a teacher in your school. You will have access to video conferences with a teacher from another school in New Zealand who will teach you subject content during weekly lessons. You will also have workbooks and dedicated study time to add to your learning experience.

Subjects likely to be offered next year include:

- | | | |
|---|--|--|

CORRESPONDENCE

Correspondence allows you to study for a subject that is not available at your school or when you have a clash of subjects. You will be provided with learning booklets and an online tutor who will give you advice and guidance as you go.

For a full list of subjects on offer through the Correspondence School go to:

University Entrance (this may be relevant for 2023)

Students intending on further education at University need to ensure that they have 'University Entrance'. Essentially this is a specified additional layer to the Level Three NCEA Qualification. The specifics are that students will need **all** of the following...

- NCEA Level 3 (the standard 80 credits)
- Three subjects - at Level 3 made up of: 14 credits each, in three approved subjects (see the list below).
- **Literacy - 10 credits at Level 2 or above, made up of: 5 credits in reading and 5 credits in writing**
- **Numeracy - 10 credits at Level 1 or above.**

University Approved Subjects available at Level Three at Paeroa College (you will need 14 credits from three)...

- Biology
- Chemistry
- Art
- Home Economics
- English
- Mathematics
- Physical Education
- Accounting
- Agriculture and Horticulture
- Health
- Business Studies
- Geography
- Science
- Technology
- Te Reo Māori

For a full list of possible UE approved subjects go to <http://www.nzqa.govt.nz/qualifications-standards/awards/university-entrance/approved-subjects/>

UE Literacy - Typically this means that students intending to go to University will need to have a successful year of **Level Two English** OR specifically target standards from other subjects. Here is a link to the specific standards offering Reading and Writing Literacy <http://www.nzqa.govt.nz/qualifications-standards/awards/university-entrance/literacy-requirements/>

You will notice in the subject information the codes **UE R**, **UE W** or **UE B** are given. These correspond to **University Entrance Reading**, **University Entrance Writing** or **University Entrance Both** (reading AND writing).

It is important that a student intending to go to University selects subjects in Year 12 that allow them a pathway through to University Entrance in Year 13.

Paeroa College Academies

All senior students will take an academy as part of their years work. Students will select two academies for the year, one being done in Semester 1 and the other on Semester 2. The academy will run over a whole day each week and will aim to engage students in working on an authentic, real world problem or issue that has been identified by either a teacher, group of students or community or ideally a combination of the three. Each academy will offer standards with a total value of 8 to 10 credits, they will be student centred and driven by the students' passions and interests.

An outline of each academy is available at the end of this booklet.

Possible Academies running in 2022:

- Sports Performance Academy
- Fabric Academy
- Crafts Academy
- Wearable Arts Academy
- Environmental Science Academy
- Horticulture Academy
- Automotive Academy
- Café Academy
- Sculpture Academy
- Police Studies
- Leadership Academy
- Mahinga Kai
- Business Studies Academy
- Performing Arts Academy
- Building Academy
- Giving Back Academy
- Māori Performing Arts Academy
- Gateway

Level Two NCEA at Paeroa College

Students take **7 subjects** at Year 12 and are aiming to gain 60 credits (20 are carried over from Level 1) in order to obtain their Level 2 NCEA Certificate. They should select subjects that relate to their interests and future career. If unsure it is best that students select a range of subjects that will both keep their future options open and provide them with a programme that they are interested in. Students should choose subjects that allow them to achieve a Vocational Pathways Award and/or Subject/Level Endorsement.

Of these 7 subjects they must take an academy, the other 5 subjects chosen are up to them. Their seventh choice is Academic Tutoring where students are under supervision in a classroom with time to complete work, catch up on missed work, complete academic tracking or complete extra standards.

YEAR 12 CAMP

All Year 12 students will need to attend a year level camp near the start of Term 4. This camp is all about experiencing a range of different cultural activities as well as learning some key life skills. Students will spend three days together improving their relationships and getting to know those they don't usually mix with. There will also be several experiences that will push them out of their comfort zones. The contribution donation will be \$100 for this camp.

WHAT DO I DO NOW?

1. Read through the courses in this booklet that are on offer to you for 2022
2. Make note of the ones that interest you or those that you need for your future
3. Look at the lines on the last page and choose one subject on each line

REMEMBER:

- You need to select 5 subjects
 - You will also take ACA
- You need to select your Semester 1 Academy

02 ACA OUTLINE 2022

Description of Course

This course includes learning about how you learn, being a good road user, study skills and life skills (including basic first aid). In here you will work with your peers, take part in team building activities and have time to complete your own work. You will also be expected to track your achievement over the year.

02 BIOLOGY OUTLINE 2022

Description of Course

This course will enable you to develop an understanding of the living world and how it affects you. You will achieve this by investigating, researching, modelling and reasoning, and will build on your ability to make evidence-based conclusions. The key areas of learning are ecosystems, adaptations, genetics and evolution and cellular biology. The course will have two main contexts: Ecology and Adaptations AND Genetics and Evolution.

02 BUSINESS STUDIES OUTLINE 2022

Description of Course

Looking to start up and run your own business within the community with a group of students? Then look no further, as Business Studies Level 2 is for you. We will work in partnership with The Young Enterprise Scheme. This is an experiential programme where your business will plan, run and review the business twice in the year. All profit will be reinvested into the community. We will have compulsory visits to Hamilton.

02 CHEMISTRY & PHYSICS OUTLINE 2022

Description of Course

This course is designed to give you foundational knowledge in both Chemistry and Physics. We look at a variety of key chemistry concepts including redox, analytical (practical) techniques and how the structure and bonding of a chemical influences its physical and chemical reactivity. In Physics we will develop understanding of why objects behave the way they do, and how we can manipulate their movement.

Students can choose to complete AS91171 OR AS91164.

02 CLASSICAL STUDIES OUTLINE 2022

Description of Course

Dive into the Classical World of Greece and Rome and discover the stories and achievements of these past civilisations. This course features two internal standards and an external exam.

Looking at the world of Ancient Greece we'll unpack the famous story of the Trojan War, learning about the culture of the Greeks alongside their beliefs and values. You'll also have the opportunity to learn about the society of the Romans and the difference between men, women, slaves, free, and more.

02 D.V.C. OUTLINE 2022

Description of Course

This course focuses on designing and making a product. Students will learn about following a process of design to develop a product that addresses an identified issue. Students will also communicate their design through a variety of presentation methods, including sketching, rendering and physical models. Once the design is completed they will be modelling it on 3D modelling software and creating it using the 3D printer and/or laser cutter, ultimately ending up with a finished physical product of their own design.

02 ENGLISH OUTLINE 2022

Description of Course

This course builds on and develops the work done in Year 11. There is a focus on discussion and sharing of ideas; drafting and crafting of writing, in all its forms; developing an understanding of the way we are manipulated to think certain ways and how to spot this and to further your appreciation of language and literature in its written, visual and oral forms.

02 GENERAL SCIENCE OUTLINE 2022

Description of Course

This course has a focus on understanding our world, our resources, and how we interact with the world as humans. We will investigate how human activity affects our environment, and the consequences of this on our future. We will take this further by looking at an issue within our environment and how information is communicated about this issue. With understanding about different environments, we will research extreme environments and how different organisms have developed to be able to survive there. As well as this, we will look into how nuclear physics applies to energy sources and our understanding of what makes up matter. We will learn how to test different samples to be able to identify different chemical species in solutions. This will allow us to be able to create nutrient profiles and identify potential contamination.

02 INDUSTRIAL DESIGN OUTLINE 2022

Description of Course

Industrial design centres around a variety of smaller projects that may build into a larger project over a year. This course's key focus will be developing your understanding of how and why products are made, and the practical skills involved in producing a chosen product. This course is designed to build both your fabrication skills further, ability to use critical thinking in a workshop context, and management skills.

Projects could include: Renovating bicycles, a go kart/drift trike, jewellery design, furniture design, or project of student choice.

02 MATHEMATICS OUTLINE 2022

Description of Course

This course is made up of Maths internals with an optional external.

The course will contain a combination of Mathematics standards. Students will develop their trigonometry skills as well as their statistical skills. Networks is a different type of Maths and you will develop skills on how to build effective and quick networks such as road and rail links.

- You will learn sine and cosine rule and be able to apply these to practical problems.
- You will continue to look at data and how to deliver the findings in reports
- You will learn about the networks that exist and what makes them effective.
- You will be able to go onto Level 3 Statistics or Mathematics with this course.
- This course will involve some short class trips looking at Networks i.e the rail trail. Also looking at trigonometry in buildings or construction. A class trip to see a simulation in action as well - Tip top.
- This course will involve guest speakers who can demonstrate how much Mathematics has helped them in their careers.
